

## OTENTIC ECO TENT EXPERIENCE

Otentic is the first and only Glamping site in Mauritius.

The riverside lodge is based on the East Coast of Mauritius in the small village called 'Deux Freres' on the banks of the longest river of Mauritius, the Grande River South East. The lodge is ideally situated at canoeing distance, halfway from the waterfall and the crystal clear 22 kilometre lagoon of Ile aux Cerfs.

Otentic accommodation features eco-tent structures and one wooden chalet, which capture water from a nearby spring.

Otentic engage in sustainable practices so they make the least possible impact on the environment. They make use of photovoltaic panels to generate their own energy, use solar water heaters, and harvest rainwater. They also sort their waste, using organic waste as compost to nourish the vegetables and herbs they grow in their on site garden, and have built the lodges exclusively from recycled wood and other recycled materials.

Otentic has added a second amazing location, 10 kilometres south of their original site, at the foot of Bambous mountain. This riverside location in a lush tropical environment with the mountain backdrop is truly magical. Otentic in the mountains evokes a spirit of sharing, simplicity, freedom and conviviality.

There are a range of activities to choose from and staff on site will be pleased to assist guests with booking excursions. One must-do activity while in this area is trekking the Bambous mountain range to admire the East Coast of the island. Treks are suitable for all physical fitness levels. You can choose a gentle 45 minute stroll or trek for up to four hours, depending on your energy levels. Treks commence from right outside guests' tents.

Guests are also welcome to participate in the preparation of meals and in gardening activities. The food provided is 100% vegetarian and organic where possible.

A stay at Otentic is an opportunity to truly disconnect and enjoy a technological detox. The valley of this glamping site is so secluded you will find no wifi signal or mobile phone.

Otentic provides a free shuttle service between their river and mountain sites twice a day in the morning and afternoon.

Otentic aims to provide an authentic Mauritian experience to their guests. The friendly staff, who all live nearby, are eager to share their local knowledge so that guests can discover the best the East Coast of Mauritius has to offer, which some consider the most beautiful coast of the island.

Experience the Mauritian way of life, while leaving the natural environment untouched.
